Car's will park along the fence line only at the top of the hill (grass area behind the stage at top) once that is full they can park on the car rental side IF there is any spaces and they can park near small stage in those few spaces but everywhere else will be for bikes and vendors. Cars from that point will need to park across the street in the field (extended) parking at Olive Garden.

Back gate is to close at 6pm and I would recommend a member sit up there at that gate to help keep it closed as it does not have a lock. Then a person at each entrance.
